PAIDI

Designed to grow

SCHOOLWORLD 2026 | 2027

Welcome to PAIDI.

Let yourself be inspired

Perhaps it takes nearly 90 years to look younger than ever? After all, that's how long PAIDI has been synonymous with high-quality, durable children's furniture. In all that time, we haven't lost a jot of our energy. This idea book provides the best proof of that. We're convinced that an inspiring environment has a major impact on learning success. Our furniture is carefully designed to ensure that it's not just an eye-catcher in the child's bedroom, but also meets every requirement. Whether it's an ergonomic chair that promotes good posture or a cleverly designed desk that grows with your child – at PAIDI, you'll find everything you need to support your child in the best possible way. After all, we're experts in well-designed children's furniture and, for the most part, parents ourselves. To understand families' needs as well as possible, we regularly exchange ideas with you. Be inspired and work with us to create the ideal environment for your school-age child – for learning, reading, crafting and being creative. Just as your child's world is constantly changing, our learning spaces adapt flexibly to every stage of their development.
This ist what all the wonderful things in life are meant for: Designed to grow.

PRODUCT INFORMATION

Technical details S. 78 – 91

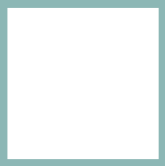

You can rely on tried and tested Quality

When you buy children's furniture from PAIDI, you can be sure that your furniture is not only high quality, but has also been designed with an eye for detail – taking into account all the challenges of everyday family life.

A BRIEF GUIDE TO MATERIALS

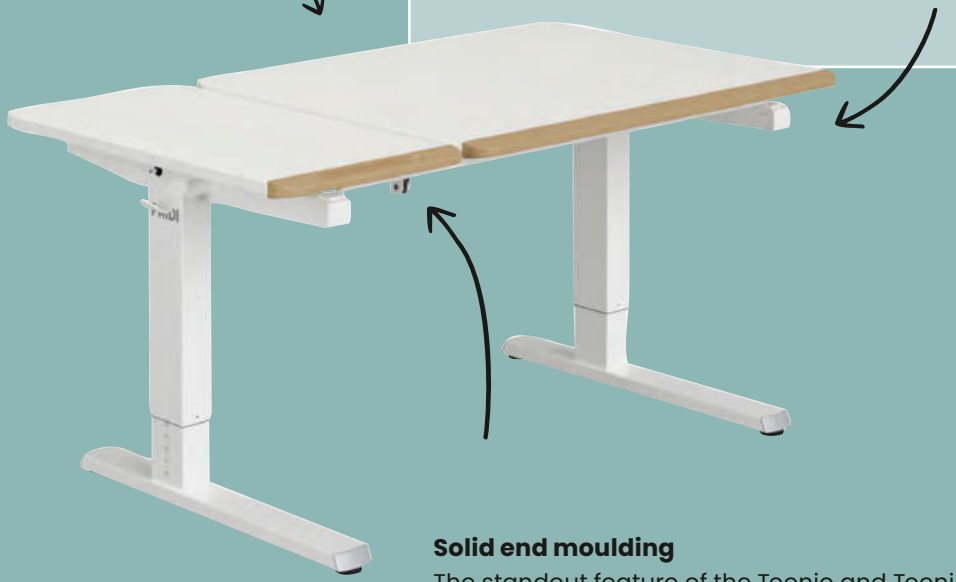

Wood-effect and plain-colour finishes

Many of the surfaces or sections of our learning areas feature a wood-effect finish with a distinctive grain. Other sections are plain coloured. This makes them ideal for combining with furniture from our Kidsworld range.

LACQUERS TESTED ACCORDING TO STRICT STANDARD

Certified paints

All painted surfaces are thoroughly tested for resistance to saliva and sweat in accordance with the DIN EN 71-3 standard – the same standard used to test the properties of toys. A damp cloth is often all that is needed to clean them.

Solid end moulding

The standout feature of the Teenio and Teenio GT is the solid wood end moulding. The grain and texture of the wood give the Teenio a unique and attractive look that blends in well with a variety of interior styles. An unbeatable advantage: wood radiates warmth and cosiness. This helps you create a pleasant atmosphere in your child's bedroom.

DURABLE & LONG-TERM AVAILABILITY

5 YEAR PRODUCT GUARANTEE

* excluding textiles and accessories from Faber-Castell and koziol

Take advantage of Experience

2

Since 1935, PAIDI has been designing furniture that adapts to the needs of growing children – from birth right through to their teenage years. That represents almost 90 years of innovation, passion and, above all, experience.

SLEEP

1935

The source of inspiration forFelie

The first PAIDI bed sees the light of day.

2025

Floor bed and co-sleeper bed

With Little Cloud and Little Flo, PAIDI is responding to changing social sleeping habits. The Little Cloud co-sleeper bed has been awarded the German Design Award and, in addition, the IF Design Award.

GERMAN DESIGN AWARD WINNER 2026

2026

The Little Snu baby and floor bed and the Little PAIDI House canopy have both won the German Design Award.

SAFETY

2017

We are pleased to present our first range of sliding door wardrobes for nurseries and children's bedrooms – designed with extra safety in mind.

ORIGINAL PAIDI **SLIDE** SYSTEM

2021

We are developing a patented PAIDI safety lock for tiny houses.

PAIDI

EXPANSION OF THE PRODUCT RANGE

1997

Our first bed system takes you straight up to the top: a play and bunk bed.

2002

PAIDI now also helps with homework: with an ergonomic desk and desk chair.

2012

Our changing board is now even safer thanks to the changing board pillow.

GROWING ALONGSIDE

Sitness just move

2020

Desk chairs with Sitness® technology: The flexible connection between the shelf and the body promotes good posture.

2023

Supporting your back whilst studying: PAIDI's e-lion 1 makes active learning possible whether you're sitting, standing or in a sit-stand position.

2024

A response to changing sleeping habits: The floor bed Little Flo adapts to children's needs when growing up.

Grow with us

.Designed to grow

3

You and your children will enjoy our high-quality study areas for many years to come. As your child grows, you can keep adding to or reconfiguring the furniture to suit their changing needs.

Faithful companions

PAIDI furniture grows with your child: from primary school right through to graduation. All PAIDI school desks and chairs can be adjusted in just a few simple steps to accommodate your child's next growth spurt. Their ergonomic design ensures a healthy posture whilst studying.

The right one Setting

1. Feet on the floor!
Here's how to work out the correct seat height: Have your child place the soles of their feet flat on the floor. If their thighs form a horizontal line and their lower legs a vertical line, you've found the ideal seat height. It's important to note that your child's legs should form a 90° angle when seated.

2. How do you straighten your back?
Sitting upright takes the strain off your child's spine. An important requirement for this is that the thighs and back should form a right angle. You can achieve this by adjusting the seat depth correctly.

3. Let's get started!!
Once you've found the right seat height, adjust the height of the worktop. This is also very easy: your child's forearms should rest on the worktop at a right angle. This way, your child will keep their back straight almost automatically.

Good posture

A clever design feature: all the table tops on our ergonomic school desks can be tilted. This helps your child maintain good posture.

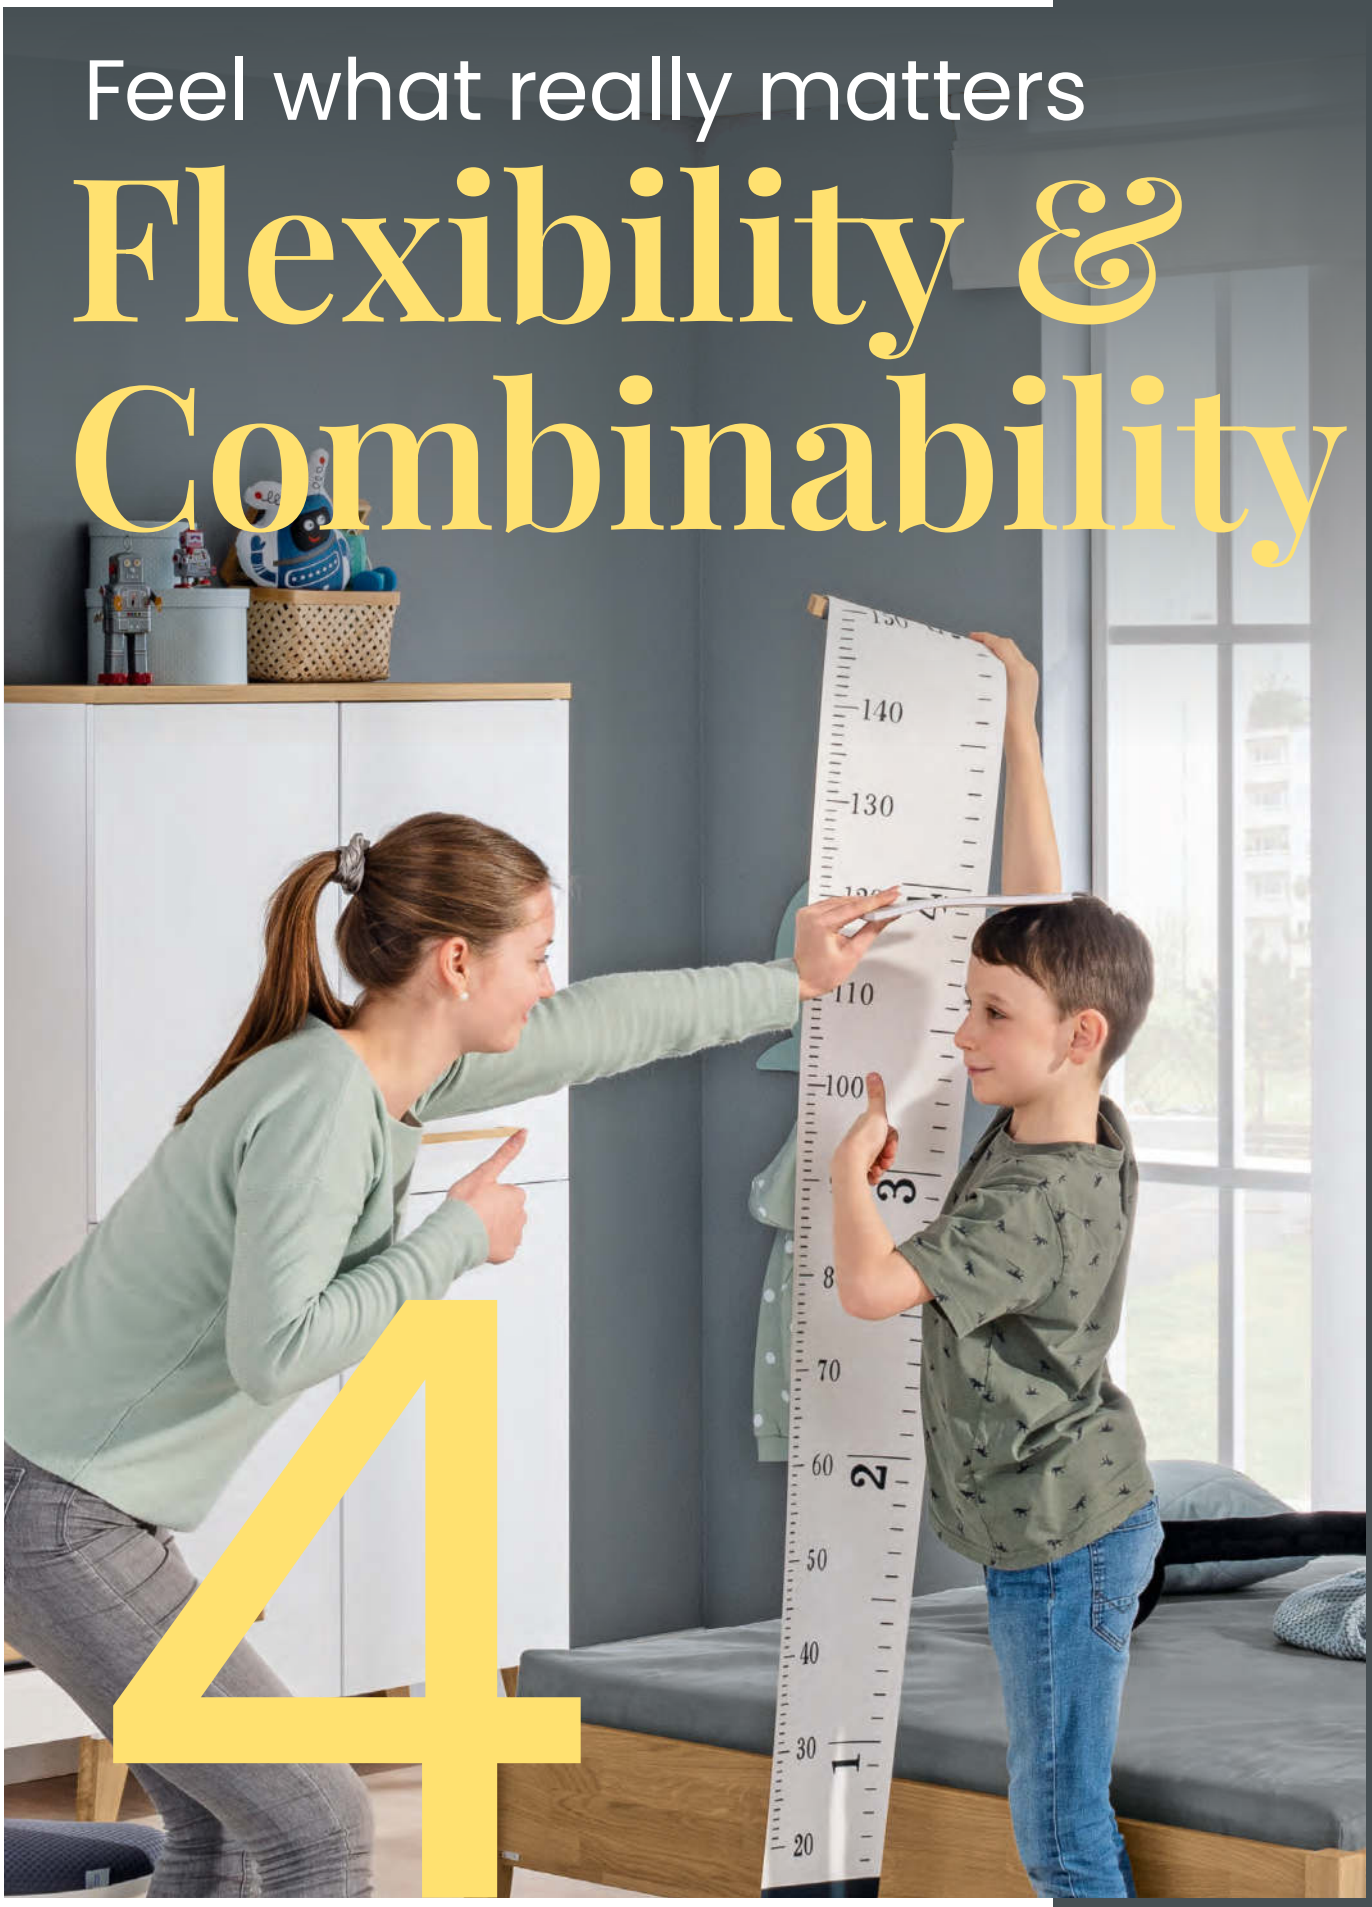

With the crank, which can be fitted on the right or left, you can easily adapt your PAIDI desk as your child grows. Thanks to the tiltable tabletop, your back and cervical spine stay straight whilst reading and writing.

Feel what really matters

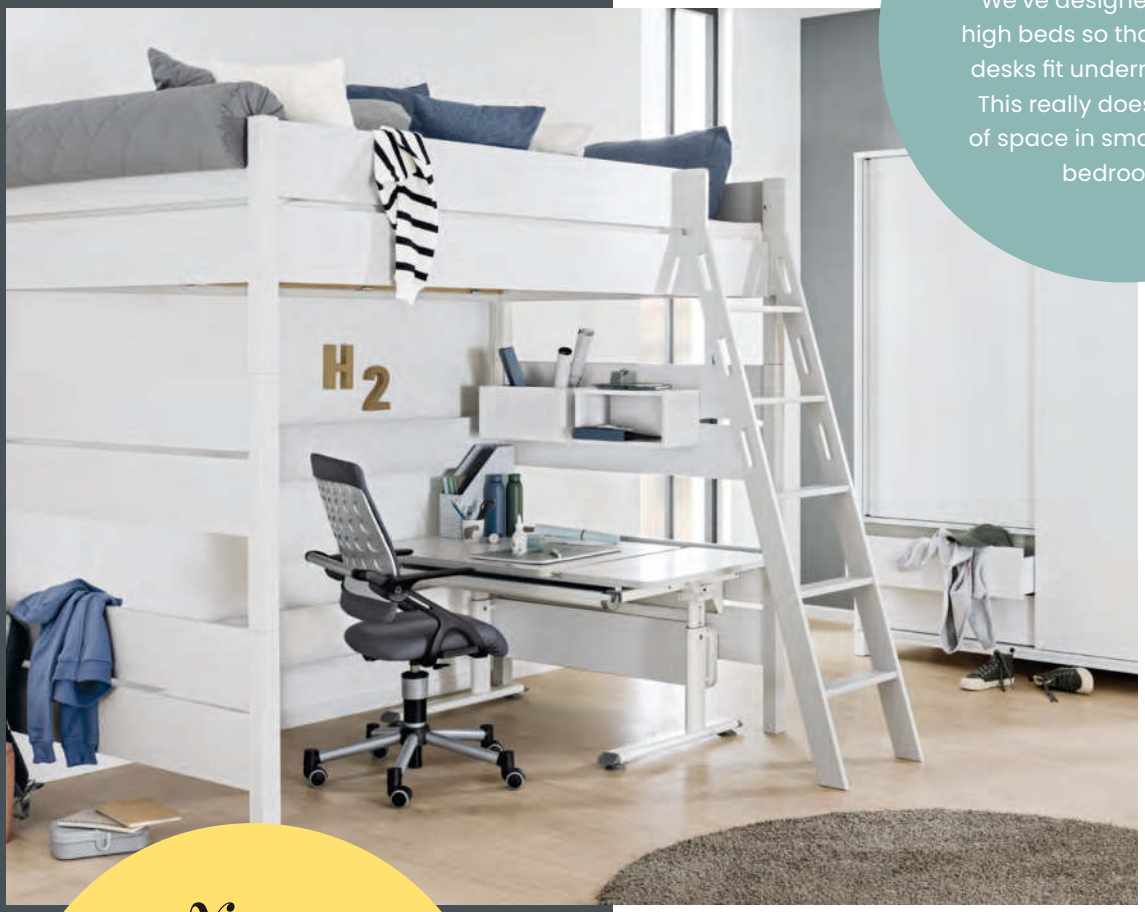

Flexibility & Combinability

4

Aim high

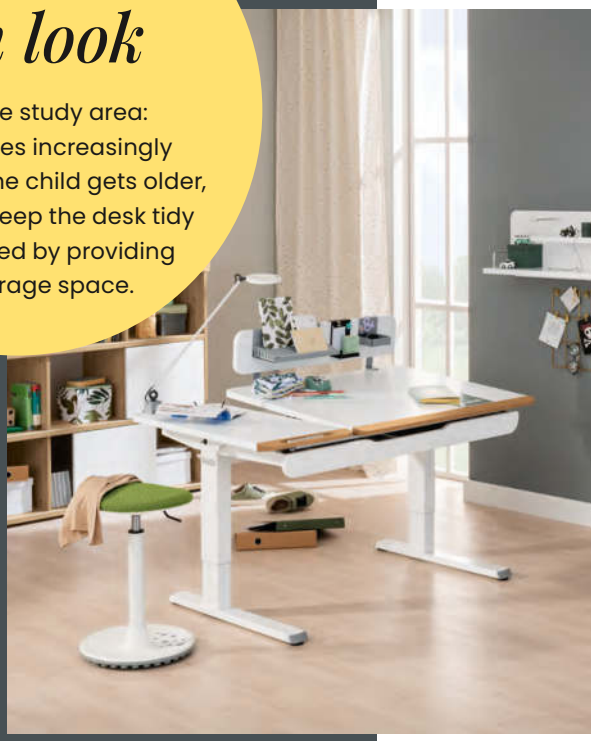

We've designed the PAIDI high beds so that our school desks fit underneath them. This really does save a lot of space in small children's bedrooms.

The Tiago high bed combines perfectly with our desks, which are available in widths of 105, 120 or 130 cm.

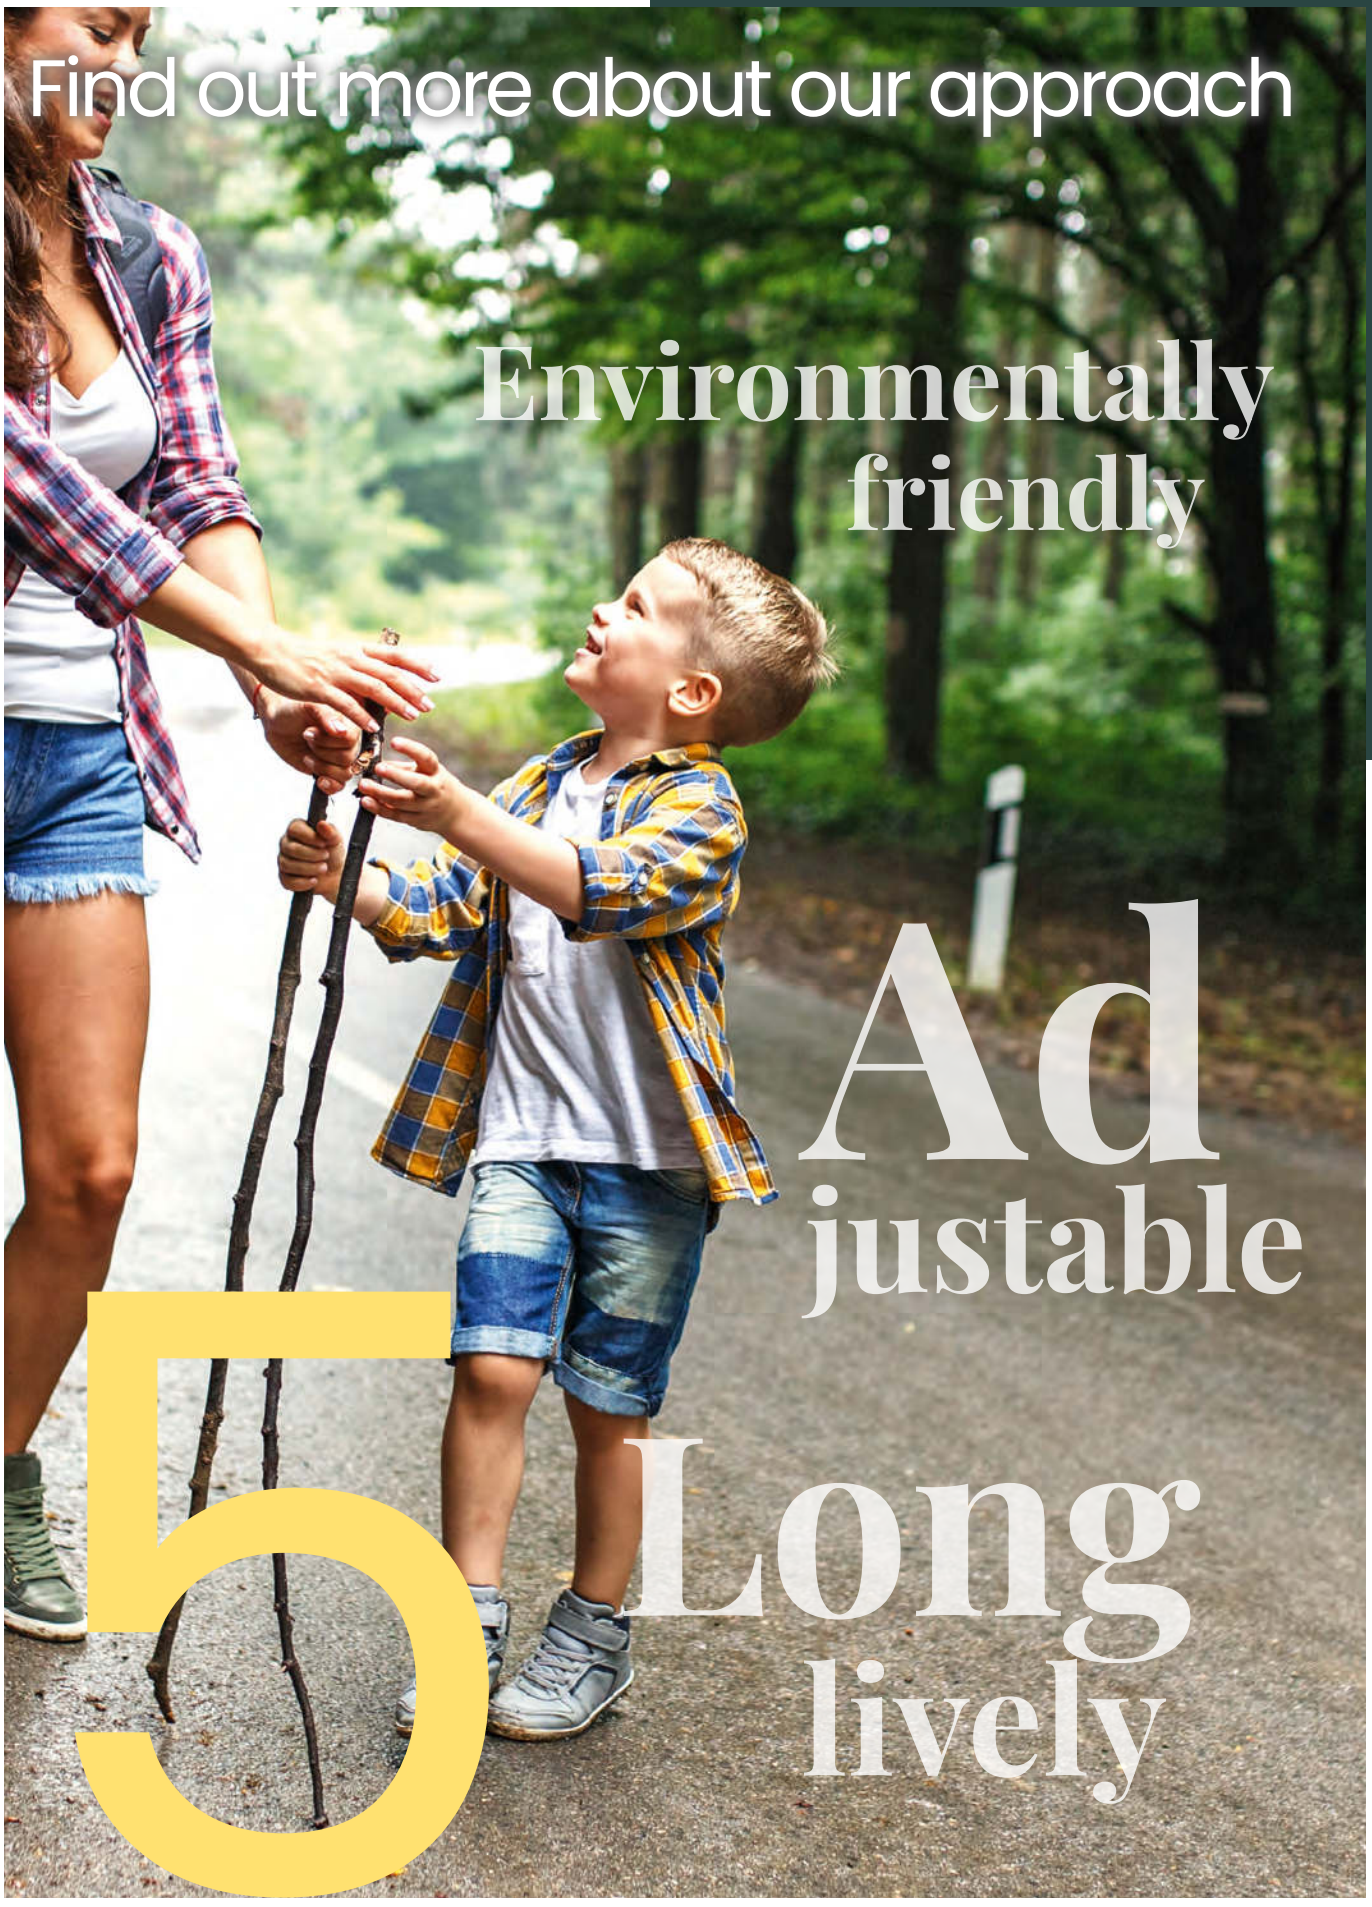

Your own look

Expand the study area: This becomes increasingly important as the child gets older, and helps to keep the desk tidy and organised by providing extra storage space.

Sitness®

Improved posture, increased concentration

Promote healthy sitting with Sitness®

Add some variety to
Children's room: Tio Sitness
It comes in four favourite colours

A natural range of movement makes sitting noticeably easier for your child and is good for their spine and blood circulation. Sitness® strengthens the pelvic and back muscles, improves concentration and boosts motivation. In this way, you actively support your child's learning.

Tio Sitness®

Tio Sitness®

- Upholstery colour

Further Information

You can find out about all the features of our Tio chair on p. 96

A clear head, a relaxed back

Learning with an extra touch of well-being

With Tio Sitness®, you can boost your good posture of your child. The best bit: thanks to the flexible Sitness®-design, your child can tilt the seat in all directions with subtle movements. This is achieved simply by shifting their weight. The result: increased blood flow to the brain and, consequently, improved concentration.

Help your child with Learning: Experience the patented Sitness® technology.

You can find more information about Tio Sitness® online at **paidi.com** or via the QR code

Find it quickly! Product information on p. 89

Discover Speedy's 360° swinging effect.
With an engaging seating experience and enhanced
Freedom of movement can help your child
studying with concentration

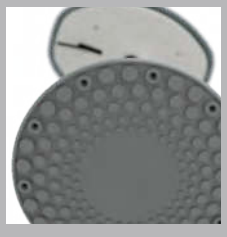

Handy: Your child can adjust the seat height to the right level in no time at all and can be adjusted ***continuously using a gas spring****. Thanks to the* ***ergonomic seat design*** *and the* ***dynamically shaped base,*** *concentration whilst playing and learning is guaranteed.*

Your dynamic seating experience

Featuring dynamic Sitness® technology

Sit in ultimate comfort whilst promoting good posture – you can do that with Speedy. With these stools children sit dynamically and train their back. The dynamically shaped foot breaks the rigid connectionbetween the stool and the floor. The result: Your child can improve his or her concentration, while muscles and brain will function better.

Active learning for older children

The healthy alternative to sitting

May we introduce Swifty? Swifty is your versatile option for standing, leaning or sitting. The patented Sitness® technology enables dynamic sitting whilst maintaining a stable stance. How does it work? The motion technology exercises the spinal muscles whilst you sit. This boosts your well-being and ability to concentrate.

Another plus point: if you use Swifty adjust to a height of up to 76 cm, in the raised position, you can also stand up and lean against it – in other words, 'standing-sitting', so to speak. The advantage: less strain on your back thanks to ergonomic working whilst standing.

You can find more information about Swifty online at **paidi.com** or via the QR code

You'll find matching drawer units on castors and other useful additions on the following pages.

Drawer units on castors – Mix & Match

More options:

Put together your ideal storage unit to go with your desk.

Whether big or small: With the PAIDI-The cushions make it particularly comfortable to sit on. Discover 8 colours to choose from

PAIDI drawer units on castors are the ideal addition to a child's desk. They provide your child with extra storage space, helping to keep the bedroom tidy. Thanks to their clever design, all PAIDI drawer units on castors are incredibly easy to manoeuvre.

A drawer unit on castors and stool in one

Fitting your drawer unit on castors with an optional seat cushion will give you an extra place to sit in the children's room.

2-DRAWER DRAWER UNIT ON CASTORS

Two soft-close drawers provide plenty of space for school supplies and more. The drawer unit on castors is easy to manoeuvre thanks to its four castors. For extra stability, simply lock two of the castors in place. If your desk is 65 cm or higher, you can simply slide the drawer unit under the desk. Maximum static load capacity: 75 kg.

Design to your heart's content

Ideal storage place for A4 exercise books

Easy to manoeuvre using the leather loop (chrome-free tanned)

Ideal folder height

Rollcaddy

Always looks great: the versatile Rollcaddy can be combined with all PAIDI desks.

The all-rounder

Our Rollcaddy can be moved around the room as required and makes good use of empty corners, providing plenty of storage space to keep things tidy.

A tidy look: files and the like disappear behind the sliding door.

ROLLCADDY

Discover our versatile organisational solution! You can stylishly combine this rolling caddy with any PAIDI school desk. With 2 open compartments, 1 sliding door, 1 separation and 1 shelf, it offers plenty of storage space. You can fit the leather loop on the right or left, so the rolling caddy fits flexibly anywhere.

External dimensions (approx.): W 75.0 / H 64.9 / D 40.5 cm

Chalk white

PARA.MI

It looks good and ensures good vision

Thanks to its elegant design, the PARA.MI lamp will remain timeless for years to come – and provides an extremely pleasant and even glow. Your child can easily turn the lamp head. Always the perfect setting: the joints can be adjusted to any angle.

White, **146 817 1**
Illuminated area: approx. 60 x 60 cm
Luminaire luminous efficacy: 75 lm/W
The product contains a light source in energy efficiency class D

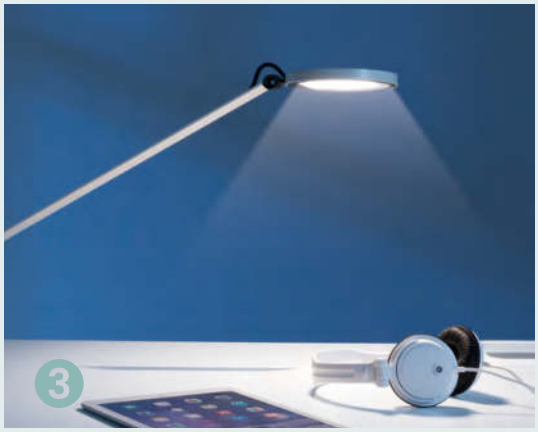

1 **Stepless dimming with memory function**
Your child can use the on/off switch to dim the light continuously. The best bit: thanks to its memory function, PARA.MI remembers the last brightness setting. Designed with sustainability in mind: thanks to an adjustable timer, PARA.MI switches itself off after a set time.

2 **Even lighting**
Perfect for focused study: 102 LEDs and a specially designed reflector produce a uniform, glare-free light.

3 **Elegant design**
With its attractive design, PARA.MI adds a lovely touch to any child's bedroom.

Helpful tools for successful learning

FUNCTION BOARD

Our multifunctional board helps keep your desk even tidier – for example, as a place to store writing materials, your smartphone, decorative items and so on. Includes three hanging trays of different widths.

We have received an award

Our furniture is built to last, is completely child-safe and, what's more, is manufactured in a low-emission way. Do have a look at our quality seals.

LONGEVITY & LONG-TERM AVAILABILITY

PAIDI guarantees quality
We vouch for the perfect craftsmanship of our products with the extended five-year PAIDI warranty.*
*Excluding textiles and accessories by Faber-Castell and koziol

PAIDI thinks about the future
There is a five-year availability guarantee for all current PAIDI ranges in the home books.*
*Excluding textiles and accessories by Faber-Castell and koziol

PEOPLE & THE ENVIRONMENT

PAIDI uses tested paints
All painted surfaces are meticulously tested for saliva and sweat resistance in accordance with the DIN EN 71-3 standard – which also tests the properties of toys. A damp cloth is often all that's needed to clean.

PAIDI bears the Blue Angel*
PAIDI furniture generates such low emissions that it is permitted to bear the Blue Angel.
* excluding textiles and accessories by Faber-Castell and koziol
www.blauer-engel.de/uz38

QUALITY & SAFETY

PAIDI stands for Certified Safety
Our PAIDI furniture, inspected in accordance with the standards for children's furniture, bears the GS mark. This constitutesthe most reliable guarantee of the functional and overall safety (of furniture and consumer goods) and is awarded by independent inspection bodies approved by the Federal Ministry.

PAIDI is committed to
As a member of the Alliance for Development and Climate, PAIDI supports CO^2 offset projects in developing countries.

PAIDI bears the RAL quality mark
With the 'Golden M', the German Furniture Quality Association (DGM) awards a quality mark reserved for furniture that has been subject to a thorough inspection. It must be safe, stable, durable and boast superb craftsmanship, as well as meeting the highest standards from a health standpoint. More information can be found at **www.dgm-moebel.de/de/hersteller/paidi-moebel-gmbh**

PAIDI is part of the Climate Pact
PAIDI has been producing a carbon footprint report for over ten years. In it, the company records all unavoidable emissions, continuously reduces its CO2 emissions and offsets any resulting emissions through certified climate protection projects.

PAIDI has low emissions
PAIDI furniture has exceptionally low emissions. That's why it has been assigned to the best emissions class ('A') by the German Furniture Quality Association.*

* The collections/models bearing the emissions label conform with the basis for the awarding of the label by the German Furniture Quality Association.

We reserve the right to make changes in line with technical progress. Stand: 08/2026
